Brock,

Attached as discussed is a letter regarding EPA's comments on the Chuitna SSC that have not been resolved to date. This letter brings together the three memoranda regarding the copper and aluminum SSC that we recently sent to you and summarizes the remaining comments that haven't been fully addressed. I don't believe any of its contents will be unfamiliar to you. The aluminum and zinc SSC are included to document the status of discussions at the point when you notified us that you are no longer pursuing SSC for these metals.

Please let me know if you have questions or would like to discuss any part of the letter. Let's talk next week about the copper SSC.

Maja
